

SWIVELLING PUSH HANDLE

ÜLOCK-B WITH SWIVELLING PUSH HANDLE COMFORTABLE SOLUTION FOR FRONT DOORS IN MULTI-PARTY BUILDINGS

- Convenient opening of the door by means of a swivelling push handle: The ÜLock is unlocked by wireless and subsequent pushing or pulling of the push handle via the lever follower
- Compatible with all Südmetail access control systems and ÜLock-B locks
- No wiring of the door necessary (ÜLock-B Battery and ÜLock-B Inductive); therefore optimal retrofitting
- Handle Ø 30 mm, length 450 mm
- Stainless steel sat. push handle
- Accessibility given according to DIN 18040-1 and DIN 18040-2

SECURITY

- Encrypted data transmission between lock and control unit
- Tamper-proof, all electronics are located in the lock case
- Self-locking, the door is always locked (opening by access control system)
- Emergency opening by means of conventional cylinders

COMFORTABLE CONTROL

- With the help of an I/O module the door can be controlled by the „door opener function“ of the intercom system in apartment buildings
- The door can not, as with conventional door openers, jump open if accidentally activated
- Easy retrofitting
- Additional opening function with conventional cylinder key
